at Ranjangud and states that as recommended by the Sub. Dy officer 500 c. ft of teakwood may be granted to the matt fm of cost.

12. The Sub. Division officer in submitting
A the estimate for sanction recommends that 500 c. ft of timber may be granted free of cost for repairs to the old building and also for the construction of a new building.

13. From the estimate itself the quantity of timber required for repairs to the old building alone cannot be made out.

B 14. In his report of 3-5-12 the Amildar has stated that there appears to be no urgency for the construction of a new building.

This payment was being regularly made for the years prior to 1887 when the free gifting timber was made.

2 The matter seems therefore to a Second thought upon Govt: the duty of keeping the building in repairs and the annual payment of Rs 30 may well represent the equivalent in money of so the demand for free grant of Timber cannot be substantiated.

3 The Govt: have however granted Concessions in the case of other institutions and the case of this Matha appears to be one for favourable Consideration. The Matha will have to pay the Cost of collection which will probably represent nearly 50% of the Depd: price.

From the entry in the record the Matha seems to have some Claim for Contribution by Government for Repairs of its buildings. The Grant of Timber in 1887 seems to have been founded on this basis. The estimate now Submitted

28). The three references available in my office regarding grants of timber to Mutts are forwarded herewith for favour of perusal and obliging return when done with. In two instances (Hire Mutt and Sri Satya Dharmaswary's Mutt), it will be seen that the Mutts merely asked for favourable rates of seigniorage under the Ryots' Special Privileges Rules on the score that they were kandayam paying institutions. In the third case, the Manager of the Puttaga Mutt asked for free grant of timber for repairing the Mutt. My predecessor in office was not disposed to recommend the application, his reasons being that there were no precedents for making free grants of timber for the reconstruction or repair of temples and other similar institutions,

NOTE—Contn. sheet

GPB—25,000 -30 4 15

that it was undesirable to create a new precedent and that the temple seem to possess vast resources and could well afford to pay for the timber it required. These arguments are applicable mutatis mutandis to Sri Raghavendraswamy Mutt also.

29) In 1937, it was directed that provision of Rs 30 per annum for the repairs of the Mutt should be made in future Provincial Budgets under Muzroy's expenditure, and it is probable that the grant of timber sanctioned in that year was not a free grant but represented the equivalent in kind for the accumulated money grant of several years for it is said that no material is available in the records to show that the annual payment sanctioned in 1876 was regularly made for the years prior to 1837. The grant of timber cannot therefore be construed as constituting a precedent and neither is the Mutt eligible for it now, since it must have been receiving its annual grant for repairs regularly since 1937. In these circumstances, and in view of the fact that the value of teak has gone up by leaps and bounds since the date of the last grant & also it would be

NOTE—Contn. sheet.

GPB—20,000—30 6-15

extremely undesirable to create a precedent which might prove inconvenient afterwards, I am not for making free grant of timber, but I have no objection, however, to the Mutt obtaining the materials under the District Forest Rules of 1901 to the extent of Kandayam paid to Government by the Institution for the lands it owns in the State provided it is not excessive.

30). If the above proposal does not commend itself to Government, I would in the alternative suggest that teak be given from the Nanjangud Depot at the concession rate of Rs 1-4-0 per Cft or the Mutt asked to fell and cart the timber from the forests paying a seigniorage of annas twelve per Cft. That this is a very modest price to pay will be evident from the fact that whereas at sanctioned depot rate which, I may add, is considerably less than what is realized at periodic auctions, the value of the timber amounts to Rs 1,125, the Mutt will have it at Rs 625 or Rs 500 whether it buys from the depot or removes it from the forest. The Mutt cannot reasonably object to pay this small sum

the previous years; that as the Matha has been receiving the grant regularly since 1887, it has no claim against Govt for free timber and that as the value of teak has gone up very greatly since the date of the last grant, it was undesirable to create a new precedent, and suggesting, as a matter of concession, that the required quantity of teak may be issued from the Nanjangud Depôt at half the depot rate or Rs 1-4-0 per c.ft or the Matha may be permitted to fell and cart the timber from the forests on payment of a seigniorage of annas 12 per c.ft.

Order thereon:—

In the circumstances of the case, Govt agree with the Conservator of Forests in thinking that a free grant of timber

to the Matha is not called for and that a grant of 500 c ft of teakwood from the Nanjungud Depôt at the concession rate of Rs 1-4-0 per c.ft will be sufficient. The Conservator is requested to make arrangements for the issue of this quantity of timber from the Nanjungud depôt at the requisition of the Matha.

A statement should be obtained from the Matha authorities showing that the wood was actually used for the purpose for which it was granted.
